D & L Stained Glass offers the following NDG Channel Widths:

• 5/32" (0.156")(3.96mm) • 3/16" (0.188")(4.77mm)

Three NDG Techniques to Choose From. All Designed to Fit Your Needs

Hobby Cure Method - Assemble your window panel by panel
curing each panel as you build and then solder.

See demonstration video at www.nodaysglaze.com

Quick Cure Method - Assemble and solder your entire window
and then apply heat to each metal came length.

See demonstration video at www.nodaysglaze.com
